目录

- Springer Nature简介
- SpringerLink平台使用指南
- 国际期刊出版流程简介
- 答疑

**SPRINGER
NATURE**

施普林格·自然

超过175年以来，施普林格·自然
一直致力于为整个科研群体提供
最佳服务，以促进探索发现。

超过175年的创新历程

令人信赖的知识来源

凭借我们一系列强有力的品牌及附属品牌，我们尽己所能为整个科研界提供最好的服务，从而促进探索发现。超过175年以来，我们确保出版重要、扎实和经得起客观检验的内容，以帮助研究人员发现新的想法。

集团基本情况概览

2020

- 2015年由麦克米伦科学与教育和施普林格科学与商业媒体合并而成
- 主要股东：霍尔茨布林克出版集团，BC Partners
- 三大运营部门：科研、教育、职业
- 全球运营，总部注册于德国柏林
- 完善的责任企业战略及报告

按业务部门的收入分布 (2020年)

我们备受信赖的品牌

SpringerLink平台 使用指南

SpringerLink科研平台概览

可快速准确访问兼具广度与深度的**科学、技术和医学**以及**人文与社会科学**资源的在线数据库。

- 出版全球一流学者的成果，涵盖Springer, Palgrave Macmillan, Adis, Biomedcentral与Apress出版物。
- 每天新增内容，每年新出版12,000多册电子书、3,000条实验室指南条目和超过30万篇期刊文章。
- 1,000+万篇科研文献，包括4700+期刊、28万+学术图书、1,500+参考工具书、6万+实验室指南、3万+学术会议论文

超过一千万种科研文献可供探索, 包括期刊、电子图书、实验室指南、会议论文和视频

The screenshot shows the Springer Link homepage. At the top, there is a search bar and a navigation menu. The search bar is labeled "检索功能" (Search Function). The navigation menu includes "Home", "Books A-Z", "Journals A-Z", "Videos", and "Librarians". The "Journals A-Z" link is highlighted. The main content area features a "Browse by discipline" section on the left, which is labeled "按学科浏览" (Browse by Discipline). This section lists various academic fields such as Biomedicine, Business and Management, Chemistry, Computer Science, Earth Sciences, Economics, Education, Engineering, Environment, Geography, History, Law, Life Sciences, Literature, Materials Science, Mathematics, Medicine & Public Health, and Pharmacy. The central part of the page displays a large banner with the text "Providing researchers with access to millions of scientific documents from journals, books, series, protocols, reference works and proceedings." Below this banner, there are two book covers: "Cancer & Metabolism" and "Next Generation Information Processing System". To the right of the book covers, there is a pink box with the text "New books and journals are available every day." Below the book covers, there is a section titled "Featured Journals". The top right corner of the page has a "Sign up / Log in" link, which is labeled "登录个人账户" (Log in to personal account). Next to it are language selection options for "English" and "Academic edition", which is labeled "切换页面语言: 英语/德语" (Switch page language: English/German). The bottom right corner of the page features the "SPRINGER NATURE" logo.

    <title>Impact of lockdown on the mining industry in India</title>
    <description><h3 class="a-plus-plus">Abstract</h3><p class="a-plus-plus">Mining is an essential industry that will provide key materials needed for India infrastructure development. Mining is one of the core sectors and growth driver of Indian economy. Minerals and ores provide basic raw materials to many important industries like power generation (thermal), iron and steel, cement, petroleum and natural gas, petrochemicals, fertilizers, precious and semi-precious metals/stones for jewellery, electrical and electronics equipment, glass, ceramics, etc. The mining sector in India was poised for robust growth in financial year 2020-2021, on the back of rising demand from end-use sectors and fresh investments announced by the mining companies. However, the spread of COVID-19, right at the beginning of the financial year, has led to disruptions across industries. There is a significant scope for new mining capacities in iron ore, bauxite, coal and other minerals and considerable opportunities for future discoveries of sub-surface deposits. Infrastructure projects continue to provide lucrative business opportunities for steel, zinc and aluminium producers. Iron and steel make up a core component for the real estate sector. Demand for these metals is set to continue given strong

Abstract 9)

Kawasaki disease (KD), an enigmatic medium vessel vasculitis, presents as an acute febrile illness predominantly affecting young children. KD appears to be a hyper-inflammatory response elicited by environmental or infectious agents (including respiratory viruses) in genetically predisposed individuals. Numerous reports from the current era of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) pandemic have described the occurrence of KD/KD-like illness in close temporal proximity to SARS-CoV-2 infection or exposure. Notably, KD has been reported in association with H₂N₂-pdm09 virus that caused the previous pandemic a decade ago. Non-H₂N₂ influenza infections as well as influenza vaccination have also been reported to trigger KD. Herein, we report a case of H₂N₂-pdm09 influenza who developed KD. We review the published literature on influenza infection or vaccination triggering KD. This may help in a better understanding of the KD/KD-like illness associated with SARS-CoV-2. Besides, we also evaluate the safety of aspirin in influenza-triggered KD as aspirin administration in children with influenza is associated with the risk of development of Reye syndrome.

Introduction 10)

Kawasaki disease (KD) is an acute febrile vasculitic disorder of childhood predominantly affecting medium size arteries with a predilection for coronary arteries. KD is now the leading cause of acquired heart disease in children worldwide [1]. The illness was first reported by Dr. Tomisaku Kawasaki, a Japanese pediatrician, in 1967 when he reported a series of 50 patients [2]. Classic or 'complete' KD clinically presents with fever for at least 5 days with four of the following clinical manifestations: edema of hands and feet in the acute stage and/or subacute

5) Clinical Rheumatology is an international English-language journal devoted to publishing original clinical investigation and research in the general field of rheumatology with accent on clinical aspects at postgraduate level.
The journal succeeds Acta Rheumatologica Belgica, originally founded in 1945 as the official journal of the Belgian Rheumatology Society. Clinical Rheumatology aims to cover all modern trends in clinical and experimental research as well as the management and evaluation of diagnostic and treatment procedures connected with the inflammatory, immunologic, metabolic, genetic and degenerative soft and hard connective tissue diseases. — [show all](#)

Introduction

This book offers a comprehensive overview of Chinese medicine terminology translation, defining the most central concepts in Chinese traditional medicine, providing simplified Chinese characters, Mandarin Pronunciation in pinyin, citations for 111 of the most key concepts in traditional Chinese medicine and culture. Covering definitions of terms relating to essence, qi, yin-yang theory, five elements and visceral manifestation in traditional medicine, it offers a selection of English versions of each term in addition to a standard English version, drawing on the translation history of traditional Chinese medicine. It provides a useful resource to understand the fundamental terms of traditional Chinese medicine and culture in Chinese and English, and their relevance to cross-cultural discourse.

Abstract 8)

Preoperative preparation, especially bowel preparation, is a routine procedure before colorectal examinations and surgeries. Bowel preparation aims to clean the bowel and facilitate surgeries. With the popularization of Enhanced Recovery After Surgery (ERAS), the contents of preoperative preparation are constantly adjusted and improved. However, due to the particularity in the surgical procedures of NOSES, preoperative preparation is still vitally important. It involves many aspects including bowel preparation, vaginal preparation for females, and psychological preparation for patients. The most satisfactory surgical effects cannot be achieved without a comprehensive preoperative preparation.

1 Bowel Preparation 10)

There are significant differences between NOSES and conventional laparoscopic surgery in terms of specimen extraction and digestive reconstruction. Aseptic techniques are involved in many operations of NOSES, so bowel preparation is strictly required. If the preoperative bowel preparation is not adequate, the intestinal contents may leak into the abdominal cavity,

在线讲座课堂及注册信息将持续更新

10月

日期: 2021年10月28日
时间: 下午3:00-4:00 (北京时间)
主题: 投稿时是否该选择OA期刊,
警惕掠夺性期刊
主讲人: 崔韶博士
美国期刊专家 (AJE) 学术教育经理

日期: 2021年10月20日
时间: 下午2:00-3:00 (北京时间)
主题: 从Landolt-Börnstein丛书到
SpringerMaterials数据库,
您身边的顶尖材料学专家
主讲人: 巨蓉博士
施普林格·自然集团高级产品经理

日期: 2021年10月27日
时间: 晚上7:00-8:00 (北京时间)
主题: 开启发现之门, 助力科研进步
如何使用SpringerLink发现与您最相关
的研究
主讲人: 卓旻歆
施普林格·自然集团客户发展经理

11月

日期: 2021年11月3日
时间: 晚上7:00-9:00 (北京时间)
主题: 人工智能技术前沿研讨会
主讲人: 宗成庆
中国科学院自动化研究所模式识别国家
重点实验室研究员
陶大程 京东探索研究院院长

日期: 2021年11月
时间: 下午3:00-4:00 (北京时间)
主题: 更好地呈现实验结果: 图片和表格
的合理组织与安排
主讲人: 崔韶博士
美国期刊专家 (AJE) 学术教育经理

日期: 2021年11月23日
时间: 下午2:00-3:00 (北京时间)
主题: Landolt-Börnstein丛书与Springer-
Materials数据库在半导体研发中的应用
主讲人: 巨蓉博士
施普林格·自然集团高级产品经理
